可生产糖排

Cereal bar produced by this line

技术参数/Technical Specifications

| 型号 / Model                        | COB 600                  |
|-----------------------------------|--------------------------|
| 生产能力/Capacity                     | 400-800kg/h              |
| 切刀速度/Speed of cutting             | 40 Times/min( Max)       |
| 糖果重量/Weight of product            | 10-40g                   |
| 蒸汽用量/Steam consumption            | 400Kg/h                  |
| 蒸汽压力/Steam pressure               | 0.6Mpa                   |
| 电源电压/Power voltage                | 380V                     |
| 整机功率/Total power                  | 96KW                     |
| 压缩空气用量/Compressed air consumption | 0.9 M <sup>3</sup> / min |
| 压缩空气压力/Compressed air pressure    | 0.4- 0.6 Mpa             |
| 用水量/Water consumption             | 0.5M <sup>3</sup> /h     |

This equipment is used for production of all kinds of candy bar by automatic shaping. It mainly consists of cooking unit, compound roller, nuts sprinkler, leveling cylinder, cooling tunnel, cutting machine etc. It has the advantage of full automatic continuously working, high capacity, advanced technology. Coordinated with chocolate coating machine, it can produce all kinds of chocolate compound candies.

此设备是各种糖芯类糖排的生产设备。整条产线主要包括：熬糖机组，辊压机组，颗粒撒布机，整平机，冷风道，切割机。该设备采用全自动连续化生产，具有高产量，工艺先进的优点。配套巧克力涂层机，可以生产各种巧克力复合产品。

Main performance

- \*Flexible capacity, 400-800kg/h for choice.
- \*Caramel specialized cooker, final products have suitable hardness and good taste.
- \*Unique designed roller and leveling device, assure smooth surface of candy bar.
- \*Cutting knife can be changed according to candy size.

主要性能

- \*产量灵活，400-800公斤/小时可供选择；
- \*卡拉蜜专用熬糖机，成品软硬度适中，口味醇香；
- \*独特设计的压辊和整平装置，使糖果外表平整美观；
- \*切刀可根据糖形灵活更换。

技术参数/Technical Specifications

| Model 型号                          | HST300                 | HST600                 |
|-----------------------------------|------------------------|------------------------|
| 生产能力/Capacity                     | 200~300kg/h            | 500~600kg/h            |
| 制皮宽度/Valid Width                  | 300mm                  | 600mm                  |
| 整机功率/Total Power                  | 50kw                   | 58kw                   |
| 蒸汽用量/Steam consumption            | 200kg/h                | 250kg/h                |
| 蒸汽压力/Steam pressure               | 0.6MPa                 | 0.6MPa                 |
| 用水量/Water consumption             | 0.3m <sup>3</sup> /h   | 0.3m <sup>3</sup> /h   |
| 压缩空气用量/Compressed air consumption | 0.3m <sup>3</sup> /min | 0.3m <sup>3</sup> /min |

HST300/600 花生牛轧糖生产线  
HST300/600 Peanut Nougat Production Line

This line is used for production of peanuts nougat and mainly consists of cooking unit, mixer, press roller, cooling machine and cutting machine. It has very high automation and can finish the whole process from the raw material to final product once time, without destroy the product interior nutrition ingredient. This line enjoys advantages as proper structure, high efficiency, beautiful appearance, safty and health, stable performance. It is an ideal equipment which help to reduce production cost and produce high quality nougat. Naugat produced by this line has right balance of hardness and softness, good taste.

该生产线用来生产花生牛轧糖，主要由熬糖机组、搅拌机、压辊机、冷水机和切割机等组成。同时，该设备可以在高自动化并且完全不破坏产品内部营养成分的前提下，一次性完成从原料到成品的操作。该生产线具有结构合理、高效率、外形美观、安全卫生、性能稳定等特点。它是一条能够帮助客户降低设备成本，生产出高品质花生牛轧糖的理想设备。该机组生产出的牛轧糖软硬度适中，口味香醇。
